Testimonials

"My gratitude goes out to the Freedom Investment Club. Since I've become a member over three years ago, I've achieved not only a wonderful return on my financial investment, I've also gained a greater understanding that becoming financially free is viable. Since becoming a FIC member, my money management has turned around 360 degrees from once having losses to now having gains. Thank you to FIC for making my money work hard for me!"

- Shelley Repka - Calgary, AB

"I knew very little about investing and had made some costly mistakes before joining FIC. I really appreciate the friendly and educational service at FIC that got me back into investing without repeating old mistakes. Thankfully I have been able to learn a tremendous amount from FIC and listening to Michael's Economy Calls. By being involved in a women's investment group, I am now able to take Michael's advice even further."

- Janice Friesen - Mission, BC

"Just a quick note to say how much I appreciate being a member of the Freedom Investment Club. The education and insight that Mike provides through the Economy calls is truly priceless, not to mention profitable! The high caliber of the FIC leaders is reflected in the club's integrity, and I'm thankful that I am a part of it. Please keep up the great work and I'll be with you for the long haul!"

- Candace Baumgartner - Evergreen, CO

"Great ways to make money and good ideas - it worked for me. I'm a few thousand dollars richer."

- Sue Horvath - Ottawa, ON

"Joining the Freedom Investment Club was one of the wisest decisions I have made. I am always amazed at the expertise and depth of knowledge exhibited by Mike Lathigee and the FIC Team. The education and mentorship is of the highest caliber. I am proud to be a member of the Freedom Investment Club."

- Eileen Dodd - Auburn, WA

"As a novice investor I kept running up against opportunities that were unknown. I did not know the people and sometimes did not understand the investment or its risks... FIC focuses on education so I have the chance to ask questions and become familiar with the details of an opportunity. I love the win-win attitude and the integrity that governs the way the club is operated."

- Ernie Slatter - Sherwood Park, AB

"The information that Michael has provided us has given us a concise, very well informed picture of the world economy, in a very short time frame. It gives us the confidence to invest in vehicles that the club gives us based on the logical, factual information that we can verify ourselves due to Michael's teachings. We are very grateful for this perspective on building wealth."

- Lawrence Dykun - Toronto, ON

"FIC has introduced me to a whole new world of financial information; workshops, conference calls, timely newsletters, conferences and more. It has been a wonderful experience of learning so that I can become financially free. The staff is enthusiastic, helpful and supportive. I would like to introduce my son, who is 16, to the group to help him learn about finances so that he too can become financially free at a much earlier age."

- Helen Rusich - Edmonton, AB

"My experience with FIC has been very positive. I am impressed with the amount of financial information I receive from them. They have been very forthcoming with their predictions of the economic future of the country - both provincially, nationally and on a global scale. I trust and appreciate all I have gained from being affiliated with them. Thank you."

- Mary Elaine Harkness - Red Deer, AB

"I am grateful that a friend of mine introduced me to FIC. So far what I have learned as far as new investing strategies has enabled me to take a year off to study in Spain. I look forward to getting back once my studies are over to catch up on what's new so that I may put your suggestions to use and who knows, maybe take another year off from my profits or better yet maybe even retire!"

- Gabriella Gombai - Cochrane, AB

"Through Mike and the Freedom Investment Club, I learn about lots of opportunities to make money or invest. I meet like-minded people and can network. It has given me the confidence to go into retirement with my head held high. The club has helped me create the income to do so, and to continue to grow, earn and learn."

- Anne MacLachlan - Gibsons, BC

"I feel the information I have received has been very educational and will continue to be an active member in the future. Looking forward to a club meeting in Winnipeg soon."

- Christopher - Wawanesa, MB

"There are a lot of great things that I have experienced since being a member with FIC. The monthly Economic Outlook Call is next to none. Michael Lathigee is so in tune with the world economics and he brings you all the info... The best experience so far has been attending the full four days of InvestFest 2007 in Calgary. The leverage that FIC has to pull in some of the world's best business people is absolutely phenomenal."

- Jason Stade - Red Deer, AB

"Mike Lathigee's seminars and teleconference calls are priceless. My financial literacy has increased ten-fold in the past year since becoming a member of FIC. I will be using his teachings to self direct my LIRA (locked in retirement account). As a first time investor in the stock market, I have that much faith in Mike's knowledge to take action."

- Dan Besse (retired police officer) - Ancaster, ON

"I am a relative novice to the field of investing. Even so, I recognize a good thing when I see it. Mike can explain economics in plain language. The Club provides education that empowers me to invest wisely with or without the Club. That to me is the mark of an organization that exists for its members' benefits, and not merely to expand a financial empire. To date, the financial education I received from the Club has already paid for the cost of membership many times over. This is among the best investments I have made in my life so far."

- Estrella Chan - Everett, WA

"When I first joined FIC I knew absolutely nothing about investing, I wanted to learn and I could not have picked a better place than FIC and I could not have picked a better person than Mike and his team. You are all awesome, and I keep learning. Thank you all so very, very much."

- Linda Noel - Islington, ON

"The tips that I have learned from FIC have given me true insight. I always look forward to the useful pearls of financial wisdom spelled out in their newsletters."

- James Young IV - Silver Spring, MD

"Investing with FIC has made me money and expanded my investor knowledge along the way. Thank you."

- Mark Soparło - Burnaby, BC

"Mike Lathigee has offered clear financial advice on both a North American and global scale. I have had the pleasure of hearing Mike speak on a number of occasions over recent years and his forecasts in the past have proven accurate in the present. He fights for the little guy (or gal) and is a pleasure to hear speak. Keep up the great commitment to excellence, truth and service, Mike!"

- Robert Osmond - Vancouver, BC

"When I get confused by what's happening in the stock market and economy, I listen to Mike's monthly Economy Call. His insight is invaluable and right on. I feel fortunate to be a FIC club member. It has allowed me to be part of hugely successful investments I could never have done on my own. The information and education provided by the club is top rate. Mike and the FIC team members are dedicated to the club members. FIC is a club of the highest integrity that you can trust."

- Susan Dumas - Waterloo, ON

"Mike Lathigee has been a ball of fire since the first time my husband and I attended the club meeting in Vancouver. Every time we have seen him speak he has been wonderfully informative about worldly affairs and an absolutely incredible "market timer." The club has a warm and personal feel to it. One great deal after another gets presented, a smorgasbord if you will of fantastically profitable opportunities that are coming up on a constant basis... And no borders in this club; we invest all over the world from China to the Philippines, which is interesting as well as exciting... Great club, great teachers, super investments. I plan to continue getting educated

and wealthy with these hard working, dedicated people. The whole group of them not only talk the talk but can walk it too."

- Jolene Chinnick - Gibsons, BC

"We have been with the FIC since it started in October 2001. Mike has been an unlimited source of education and information on good investments that have turned into profits for us..."

- Dick & Dorothy Wynia - Red Deer, AB

"Since I joined FIC in 2005, I am consistently wowed by Mike Lathigee and FIC. Mike demonstrates his remarkable command of the state of global economy, with emphasis on the US and Canadian markets in his monthly Economic Outlook Calls. He's assembled a team of experts who have achieved outstanding results and all is done with integrity. In all, I feel very lucky to have been directed to FIC..."

- Jill S. Levin - Los Angeles, CA

"Great ways to make money and good ideas, it worked for me. I'm a few thousand dollars richer."

- Sue Horvath - Ottawa, ON

"Having been to a number of top-notch seminars and conferences over the years, I would consider Mike to be a world-class speaker and leader. Not only is he well-versed and confident in his topics over the phone and in person, but he is also a very helpful, resourceful and supportive individual. Mike is a huge asset to FIC and I continue to enjoy learning from him. As we head towards 2008 I can only look forward to Mike steering us to bigger and better things. Keep up the great work, Mike!"

- Jason Chong - West Vancouver, BC

"I am a relatively new member of FIC club... I congratulate myself often on making one of the smartest decisions in my life - joining the club. My horizons have broadened and I have become educated and motivated through meetings and presentations provided by the club. Thank you Mike and FIC for being there with lots of information and opportunities that you share on a regular basis with the members."

- Yara Havlicek - Richmond Hill, ON

"The FIC club is fantastic. I no longer have any fear regarding investing or the future because of the knowledge that I receive from the club. I also love the fact that if I can't make the conference calls that I can listen to them online. Thanks for a great club."

- Monique Schlosser - Saskatoon, SK

"I attended a free FIC meeting and learned some very interesting facts about Mutual Funds and how most perform on the markets... I went home and started to look into the mutual funds I had and how they were performing and was disappointed to see that after over five years of investing in mutual funds, I was not making money and was actually down about \$500. I immediately joined FIC... pulled my Mutual Funds and invested with FIC Canada... My investments are actually making money now. Another thing I like about FIC is they provide so much valuable information about investing in various markets and truly care about their members' interests. Michael Lathigee and the FIC team know what they are doing and help us make gains on our capital. Thanks FIC."

- Robert Weiss, Alberta

"Michael Lathigee has not only changed the way that I see the market place, but the way I see the world. I appreciate his global perspective and have re-aligned my thinking taking into account his advice and analysis. It is a relief to me knowing that Michael is there contributing his insight which rings so clear above the din of pundits promulgating information that may be accurate, but often proves useless without the context you get from Michael."

- John Pratt - South Fallsburg, NY

"The FIC team prides itself in providing its members with an amazing education in our world's economy as it affects our ability to make money in buying and selling stocks. The team is dedicated to ensuring that the members become capable of following the club's philosophy on their own..."

- Bien Otero - New York, NY

"I am 27 years old and a very happy new member of FIC. Although I do not have a high net worth and have only invested a little money within one of the FIC funds, I still enjoy all the benefits and knowledge that every other member gets within the club. I joined FIC after listening to a few of Mike's Economic Outlook Calls. I was tired of the dismal returns and lack of knowledge I was receiving from my bank and knew that I needed to educate myself. I have complete confidence that my money will grow with this group but more importantly, I am

learning what it means to be an investor... Within the first six months of being a member I have taken advantage of over \$3500.00 in free courses that the club has provided to its members... Thank you Mike for your insight and knowledge. Freedom 35... here I come!"

- Jason Kelemen, Edmonton, Canada

"Since joining FIC USA at its debut, my wife and I are very pleased with the results of our investment. The advice and opportunity have increased our knowledge and net worth significantly. The Economic Outlook Calls are absolutely invaluable. The classes provide vital information from a real-life perspective. We are staunch supporters of the club and freely refer others to get involved..."

- Samuel C Zeiler - Seattle, WA

"I have been attending the FIC meetings on a regular basis and am consistently impressed by the quality of financial information provided. The financial education I have received has helped me considerably increase the value of my investment portfolio. I will continue to attend the meetings and listen to the Economic Outlook Calls and am planning for 2008 to financially exceed 2007."

- Jeremy Rayski - Vancouver, BC

"Mike and the FIC team - thank you for delivering what you said you would. We were investors in the original FIC offering in 2002 in Vancouver. From an initial purchase price of \$1.00 per share and an idea of what the club might be, we have seen the unit value increase under the tests of the investment market, seen the Club mature under the challenges of the regulatory environment and the seen expectations of an ever increasing membership addressed with a group of new and different products. Today we see FIC operating in Canada and the US, we have a unit price well above \$2.00 (i.e. a "double plus"), we see investment opportunities in Canadian equities, China, Southeast Asia, real estate and selected debt instruments just to mention a few. What is so nice to see is that the foundation of education for the club members has been foremost. From the initial road-show programs to live teleconferences and multi-day topic specific courses, FIC has expanded their educational offerings both geographically and intellectually. We believe the leaders of FIC have done well for the membership and that the individual investor with modest resources does have an opportunity that is different from the products offered by the banks and investment houses through participation in FIC. Thank you for withstanding the test of the last 5 years and delivering us a good experience."

- Rob & Lorraine Kettle - Los Angeles, CA

"I am semi-retired, an active trader in the stock markets and managing my own retirement funds. I use technical analysis for entries and exits, but I use Mike Lathigee for the fundamentals; particularly for economic outlooks, sound investing ideas and excellent stock tips! I've been with FIC since 2004 and found that Mike has the uncanny ability to call the sectors and seasons very accurately. An example would be his belief in the growth of uranium stocks. Because of his lead, I have learned a lot about this sector and, by acting on what I've learned, have made a lot of money! I always look forward to and enjoy club meetings (since joining, I've never missed one yet!). It's nice to be surrounded by very keen and successful people. There's no excuse for not learning something new each time we meet! Mike leads with enthusiasm and it's very contagious amongst members and the staff... For me, FIC is the complete investing resource package that I couldn't function without. Thanks Team FIC!"

- Dave Melles - Harrison Hot Springs, BC

"FIC is a great tool to help organize your financial picture and investment opportunities. The speakers have a very strong background and experience and provide very honest and easy to understand advice..."

- Doris Parreno - Toronto, ON

"I always plan my schedule to catch Mike Lathigee's Economy Outlook Calls. I am very busy - a mom and I own several businesses, so I can't always keep up as well as I'd like with the larger economic influences - I'm just trying to keep up with everything on my plate! Mike's calls are so helpful for planning how to use my investment capital, and the timing. Because of his analyses, and his urging, I participated in two real estate investments that returned 25% and 22% back, both in one year. I was so thrilled! I've also proceeded in learning more about different types of investing, like in silver, that I would never have known enough about, if I hadn't heard about it from Mike."

- Kathleen Goodman - San Diego, CA
